Ball Mastery Winter 2019

Players develop individual technical abilities with the ball as they progress from manipulation to mastery

Program Description:

The foundation of Maroons development is Ball Mastery. This high-touch program is focused on the individual and the ball. Players will learn the technical aspects of dribbling, control, change of direction, skill moves, ball manipulation with all parts of both feet, and tight space maneuvers. Repetitive 1v1 situations increase ability to execute skills in game situations.

The best players in the world are true BALL MASTERS, including Messi, Xavi, Mata. This course provides "Deep Practice" for the individual, strengthening a two-footed technical foundation.

Objective is to develop talented players who are comfortable holding a ball under pressure and in tight spaces, capable to manipulate the ball away from pressure, and consistently create attacking opportunities. Players will develop a more instinctive play, improvising, creating magic, and constantly running at defenders in the final third.

Program Details:

10-Week Program held at The Superdome, 134 Hopper Ave, Waldwick NJ. Each class will be 1 hour. Classes will be held on Saturdays: January 5th, 12th, 19th, 26th, February 2nd, 9th, 23rd, March 2nd, 9th, 16th, (make up on 23rd March).
